Group Theraplay[®]

Group Theraplay training is for professionals who want to use Theraplay in classrooms, day care, residential settings or group settings. **This training can be taken as a stand-alone training.**

Learning Objectives for Group Theraplay:

- How to plan and structure a Theraplay group
- How to apply Theraplay principles to group treatment
- How to adapt group Theraplay to different populations
- How to manage resistance and other problems
- Describe the steps toward implementing group sessions internally
- Skill development in how to use group rules and techniques through practice

Special Features of this Training:

The training is interactive and practical. It includes video examples of group work and the opportunity for each participant to lead a group activity.

Who should attend: School Counsellors / pastoral support workers, Social Workers, Teachers, SENCO's, Learning Support & Teaching Assistants, Family Support Workers, Nursery Staff, Early Childhood practitioners and Specialists, Clinicians who work with groups of children/family groups.
